

NEW PRODUCT!

EPSILON™ Siren Series

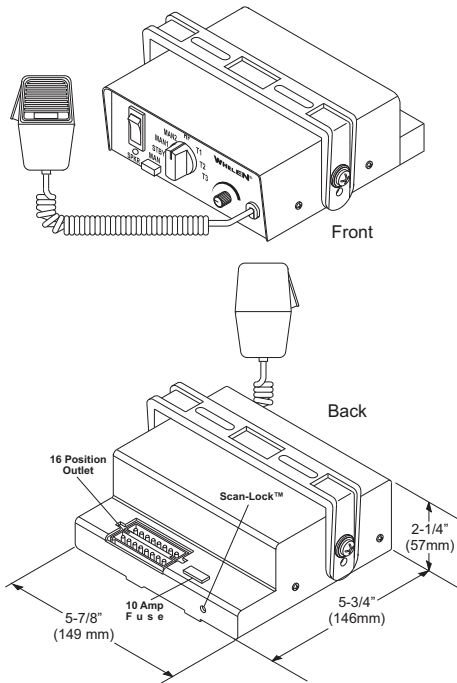

ECONOMICAL, SELF-CONTAINED
100 WATT ELECTRONIC SIREN

The new Epsilon siren is designed to meet SAE Class A sound requirements when used with most 100 watt siren speakers. Epsilon features hands-free and public address operation, Scan-Lock™ multiple warning tones and horn ring override capability with real time diagnostics.

FEATURES

- Meets SAE Class A sound requirements when used with most 100 watt speakers.
- California Title 13 ready.
- Long lasting LED backlighting.
- Real time diagnostics indicator. When the indicator is steady, the siren is operating correctly. If it single flashes, the speaker is short circuited; and, if the indicator is off, the speaker is under current.
- Nine Scan-Lock™ siren tones to choose from: tone off, wail, yelp, air horn, Hi/Low, Piercer, Y249, manual wail coast to stop, and manual wail stop.
- Hands-free operation from the vehicle steering wheel.
- Scan-Lock switch is located on the rear for security of the unit to ensure that all of the fleets' sirens are set with the same tones.
- Installation package includes all the necessary mounting hardware and input pigtail connector.
- Front of unit provides a PA volume control knob for the noise-cancelling microphone, On/Off switch, manual button and 7-position rotary switch.
- Rotary switch allows choice of standby for use with the manual button, manual tone 1 & 2. Hands-free position allows horn ring operation of the siren and tone 1, 2 and 3 positions. Each of these tone positions has an override tone when the manual button is depressed.
- Easy to install. Pre-wired with quick disconnect plug for easy service and prompt replacement.
- Twenty-four month warranty.
- Dimensions: 2-1/4" (57mm) H x 5-7/8" (149mm) W x 5-3/4" (146mm)D.
- Weight: 2 lbs. 11 oz.
